

## 2 day ASL Training Programme

Dear Principal,

Greetings!

As you are aware of the fact that CBSE essentially desires its students to acquire proficiency in communicative skills of English language by the time they leave the portals of the school. In order to achieve this, the provision of assessment of speaking and listening skills has been made compulsory.

By recognizing the tremendous responsibility of the teachers in bringing up the standards in language skills of the learners, CBSE provides them with relevant support material and conducts training sessions regularly to get familiar with the objectives and the formats of the assessments, both formative and summative.

The parameters for testing and their measurement base works on pre-determined standards. However, it is expected that whatever the learners will be tested in should be practiced and learnt in class. The teacher hence needs to ensure that these skills are consciously addressed in the day-to-day classroom sessions and the learners have to be guided to develop and hone these skills of speaking and listening. So, it is required to ensure that the teachers get trained properly in ASL.

Hence, CBSE Centre of Excellence, Kochi has scheduled **2 day ASL TRAINING PROGRAMME** at Bengaluru of which the details are given below:
